Workshop Announcement

Crystallographic Databases

The U.S. National Committee for Crystallography (USNC/Cr) has partnered with the National Institute of Standards and Technology (NIST) and the National Academy of Sciences (NAS) to provide an online short course in April 2022 to train students and researchers on the use, development, and maintenance of crystallographic and structural databases, encompassing macromolecular, small molecule, and powder diffraction information resources. Graduate students, postdoctoral fellows, faculty members and researchers in any of the crystallographic, diffraction, and imaging sciences affiliated with the International Union of Crystallography (IUCr) are encouraged to apply. Undergraduate students will be considered in exceptional cases. More details on the registration process will be available in Fall 2021. For more information, please contact USNC/Cr member Joe Tanski, jotanski@vassar.edu.
